Master Sgt. Jimmie Davis, 47th Flying Training Wing enlisted career adviser, suits up and practices his bowhunting techniques in his tree stand near the skeet shooting range.

Base hunting season begins

Compiled from staff reports

Laughlin Air Force Base will open its hunting grounds starting Saturday.

Base hunting is authorized for active and retired military people, Department of Defense civilian employees and their families, and other federal employees in the local area.

To hunt on base, eligible people must have a valid Texas hunting license for the type of game they wish to hunt and a base-hunting permit, said Master Sgt. Jimmie Davis, vice president of the Val Verde Military Sportsmen Club.

Base permits can be obtained from Sergeant Davis, while hunting licenses are available at the Base Exchange and most hardware and sporting goods stores. In addition, all people born on or after Sept. 2, 1971, must take a hunter education course in order to hunt in Texas. For a listing of classes in the local area, log on to www.tpwd.state.tx.us/hunt/hunt/htm.

Sergeant Davis will hold a mandatory meeting at 6 p.m. today in the Enlisted Heritage Hall

Laughlin civil servant attends Navy War College

By Airman 1st Class
Yvonne Clark
Staff writer

After eight years as an assistant professor for Embry Riddle Aeronautical University here, Mark Hewitt, 47th Maintenance Directorate deputy director, found himself in the student's seat while attending the Naval War College.

While it is not uncommon for civilians to attend a service school, Mr. Hewitt was one of few civilian leaders to attend the senior service school in August 2002 after being selected for the Defense Leadership and Management Program.

"I applied for DLAMP, which is the Department of Defense program for developing civilian executives," said Mr. Hewitt. "With a master's in business administration and previous assignments in other agencies, all I really needed to complete the program was to attend one of the senior service schools. After being

Adversity tests us all, makes us stronger

Commander's Corner

By Lt. Col. Tim Sowin
47th Aeromedical Dental Squadron
commander

If left untested by adversity, a person can grow lazy and weak, expecting easy victory after easy victory. Integrity within that context may lack substance.

While some reading this may have so far enjoyed win after easy win, life experience teaches us that adversity, "real" adversity sooner or later tests us all.

Often, we don't anticipate our encounters with this sculptor of character. Life seems good, then "wham", we're consumed by grief at the loss of a loved one, the failure of that romance (which was our bedrock) the perception of our own inescapable failure to do what we so wanted to do. And, life just marches on.

"... our integrity, in the face of adversity, shapes us, takes us beyond where we were before, makes us stronger, more effective, more stable to serve."

I offer to you that it is what we do then that defines us. And what should we do?

Sometimes it may feel like what we need to do next is whatever we feel like doing. We can set into motion a cascade of impulsive bad choices – drinking to excess, throwing ourselves into artificially intimate, shallow relations, spending our assets on frantic efforts to feel better, digging ourselves a hole. Or, we can turn to our friends, those who really care about us. We can bring our concerns to God in prayer. We can try to step back and see more of our impact on others, and less of life's impact upon us.

Recorded in the Holy Scriptures is the fact that time and again near overwhelming adversity catalyzed the character development of those destined for greatness. Yet, books are rarely written about those who were never tested.

In fact, they are rarely written about those who always won and did so easily. Adversity, in particular our integrity in the face of adversity, shapes us, takes us beyond where we were before, makes us stronger, more effective, more able to serve.

Therein lies the central choice – faced with adversity, do we cling to God and country and fellowman; do we cherish our own integrity? Or, do we cave in to impulsive whim, quit, walk away, then turn to lying, cheating, or stealing; do we rob ourselves of our God-given dignity as men and women?

That choice has always mattered and will always matter. "Integrity first" – not just on the sunny days when life is easy and breezy. Integrity first and foremost.

Border Eagle seeks commentaries

The Border Eagle encourages base members to take part in their paper. Anyone wanting to write a commentary for the Viewpoint pages of the paper is welcome.

Commentaries can be written about any aspect of Air Force life you find interesting. Commentaries should be 250 to 500 words in

length. Public Affairs reserves the right to edit all submissions for length and clarity.

Commentaries for the Border Eagle should be submitted to the Public Affairs Office, Bldg. 338. The deadline to submit a commentary is close of business each Thursday, the week prior to publication.

For more information, call 298-5393.

The Border Eagle is published

every Friday, except the first week in January and the last week in December, by the Del Rio News-Herald, a private firm in no way connected with the U. S. Air Force, under exclusive written contract with the 47th Flying Training Wing, Laughlin Air Force Base, Texas.

This civilian enterprise Air Force newspaper is an authorized publication for members of the U.S. military services.

Contents of the Border Eagle are not necessarily the official views of, or endorsed by, the U.S. Government, the Department of Defense or the Department of the Air Force. The appearance of advertising in this

publication, including inserts or supplements, does not constitute endorsement by the Department of Defense, the Department of the Air Force or the Del Rio News-Herald of the products or services advertised.

Everything advertised in this publication shall be made available for purchase, use, or patronage without regard to race, color or, religion, sex, national origin, age, marital status, physical handicap, political affiliation or any other nonmerit factor of the purchaser, user or patron.

Editorial content is edited, prepared and provided by the Public Affairs Office of the 47th Flying Training Wing. All photographs are Air Force

photographs unless otherwise indicated.

Deadlines, Advertising

News for the Border Eagle should be submitted to the 47th Flying Training Wing Public Affairs Office, Bldg. 338, Laughlin AFB, TX, 298-5262. **Copy deadline is close of business each Thursday the week prior to publication.**

Advertising should be submitted to the Del Rio News-Herald, 2205 Bedell, Del Rio, TX, 774-4611. Advertising should be submitted by 4 p.m. each Friday.

Submissions can be e-mailed to: timothy.stein@laughlin.af.mil or yvonne.clark@laughlin.af.mil.

We will never forget ...

By Sarah Anne Carter
*Air Force Material
 Command public affairs*

I, Sarah Anne Carter ...
 The pictures are considered stock photography by most news organizations now. News organizations use the photos today to emphasize a news event, usually involving terrorism or, most recently, the release of the report about how U.S. intelligence acted prior to that day. Yet, every time I stumble upon a picture from Sept. 11, 2001, I pause. The pictures still affect me.

... having been appointed to government civil service in the United States Air Force ...

My current position doesn't quite show how loyal to the Air Force and my country I am. People I've met in this professional environment often joked that I'm blue through and through.

I was born at the U.S. Air Force Academy, Colo., to a young airman and his wife. I grew up on military installa-

tions across the United States and in several foreign countries.

My family bonded through the experiences of moving, separations due to schools and the countless temporary duties. And now that I've grown up, I'm working for the Air Force.

... do solemnly swear (or affirm) that I will support and defend the Constitution of the United States against all enemies, foreign and domestic, that I will bear true faith and allegiance to the same; ...

My first day of permanent civil service, I took the oath. And it truly meant something. I had seen enemies attack my country several months before.

When I went to work Sept. 11, 2001, evil men were plotting to destroy the lives of hundreds of innocent people. I was in shock with the rest of America when the World Trade Center towers were attacked.

And then the terrorists got personal. They hijacked a plane and directed it straight toward the Pentagon where my father was sitting in his blue uniform serving his country.

... that I take this obligation freely, without any mental reservation or purpose of evasion, and that I will well and faithfully discharge the duties of the office upon which I am about to enter. ...

Many hours were spent that morning wondering how many members of my family would be alive at the end of the day. One of my brothers and I were relatively safe in Omaha, Neb., although when the president landed at Offutt Air Force Base, Neb., I'm sure that city became a target.

My mother and my other brother were in Washington, D.C. I received several panicked phone calls from my mother who was not only wondering where her husband might be and when her

son might be able to get home from a local high school, but if she should evacuate her housing at Bolling AFB, D.C., after she heard a loud explosion.

... so help me God.
 Each minute that morning seemed to last forever. And then the phone rang, and I heard my father's voice.

The day ended and all five of us considered ourselves immensely blessed to still have an intact family. So many people that day did not have the same ending.

All five of us pause when we are reminded of that day, whether it's when we see the pictures on the news or hear conversations about that day. Sept. 11, 2003 – two years later – I plan to walk in to work at an organization where I'm serving my country, and my father will walk into the Pentagon wearing his uniform proudly.

My mother and brothers will count their blessings. And I know that sometime during that day, we will all take time to pause.

Sept. 11, 2001 – we will never forget.

“When I went to work on Sept. 11, 2001, evil men were plotting to destroy the lives of hundreds of innocent people.”

Col. Dan Woodward
 47th Flying Training Wing commander

Actionline 298-5351

This column is one way to work through problems that haven't been solved through normal channels. By leaving your name and phone number, you are assured of a timely personal reply. It's also very useful in case more information is needed in order to pursue your inquiry. If you give your name, we will make every attempt to ensure confidentiality when appropriate.

If your question relates to the

general interest of the people of Laughlin, the question and answer may also be printed in the Border Eagle.

Before you call the Actionline, please try to work the problem out through the normal chain of command or directly with the base agency involved.

Thanks for your cooperation, and I look forward to reading some quality ideas and suggestions.

Below are some useful telephone numbers to that may be helpful when working your issue with a base agency.

Civilian, from page 1

accepted into the program, I was offered the opportunity to attend the Naval War College.”

As a student for 11 months in Newport, R.I., Mr. Hewitt sat in class with about 300 lieutenant colonels and colonels from all branches of service, 55 international students and about two dozen civilian members from Department of Defense agencies and other departments such as CIA, National Security Agency and National Imagery Mapping Agency.

“We had a mixed bag of professionals,” added Mr. Hewitt. “It was interesting. Some of the individuals who had no military time whatsoever had difficulties in the [final] trimester because the jargon and acronyms got a little heavy in the joint military operations [portion].”

As a retired Marine captain, Mr. Hewitt said the joint military operations phase was fantastic. “It was an amazing amount of fun,” he said. “I spent nine years enlisted in the Marine Corps and 12 years as an officer, so it wasn’t like I was completely in the blind or in the dark or anything. It was an amazing experience to be there.

“One of the great things about the Naval War College is we had a 20-year CIA agent on staff,” said Mr. Hewitt. “It was very interesting, high-profile stuff. While there, I thought, ‘I’m proud and motivated,’ and sometimes I thought, ‘I’m the luckiest guy I know.’ The quality of instruction was incredible. There were a number of instructors with Harvard doctorate degrees.”

Although the students were required to read 400-1,000 pages per week and turn in papers ranging from 8 to 60 pages, Mr. Hewitt says it was an incredible experience.

“The reading could be [difficult], but I’ll tell you it was absolutely fascinating,” he added. “To say the program was interesting and dynamic would be an understatement. Over the course of the school year, the war college hosted all the service chiefs, numerous generals and admirals, high-ranking civil servants and international leaders and some high-powered civilians. With all the diversity in the classes – men, women, different races, cultures and religions – it was remarkable to see how everyone worked so well together.”

According to Mr. Hewitt, the program is

designed to prepare civilians for management and leadership positions.

“I [was able] to bring back a master’s degree in national security and strategic studies, and a broader view of what’s going on in the world and how this little piece of Laughlin fits into the larger scheme of things,” said Mr. Hewitt.

Policy making and implementation, executive decision making, strategy and force planning, strategy and force policy were just a few of the courses. Mr. Hewitt said the curriculum was the most important part of the senior service school. He also attended elective classes, including the organization, function and capabilities of the CIA and an independent study with the Office of Naval Intelligence.

“The whole experience was personally rewarding,” Mr. Hewitt noted. “Graduation from the Naval War College essentially means I have completed the requirements from DLAMP, and now I am awaiting notification from the Office of the Secretary of Defense on the certificate of completion.”

Hunting, from page 1

for anyone seeking to hunt small game or bowhunt deer on Laughlin. Hunters must present a valid Texas hunting license and a DoD identification card in order to purchase a hunting permit. Permits cost \$5.

As the gun season for deer approaches, an additional meeting will be held to issue base permits, Val Verde Military Sportsman’s cards, stand assignments and stand briefings, noted Sergeant Davis. Rifle hunters do not need to attend today’s meeting.

“All hunting areas will be clearly marked with signs,” he said. “Most wooded areas on base can be

used for hunting. Safety is very important, and people should be aware of their surroundings and not venture into any hunting areas for jogging, biking or horseback riding. The area for those activities is the wooded area between the main gate and to the west gate where there will be no hunting. There also won’t be any hunting in the parasailing area of base.”

■ Regular white-wing dove season begins Sept. 20 and runs until Nov. 5 and again from Dec. 20 until Jan. 4. Shooting hours are one-half hour before sunrise to official sunset. The bag limit is 12.

There is a special season start-

ing Saturday which runs Saturday - Sunday and Sept. 13-14. Shooting hours are noon until official sunset. The bag limit is 10.

■ The morning dove season runs from Sept. 20-Nov. 5 and again from Dec. 20-Jan. 4. The shooting hours are one-half hour before sunrise to official sunset. The bag limit is 12.

■ Quail season runs is from Oct. 25-Feb. 29. Shooting hours are one-half hour before sunrise to official sunset. The bag limit is 15 per day.

■ Rio Grand turkey season is from Nov. 1-Jan 18 and March 27 -May 2. There is a special archery season Sept. 27-Oct. 26. Shooting

hours are one-half hour before sunrise to official sunset. The bag limit is two of either sex during the fall and two gobblers in the spring.

■ Bow season for deer is Sept. 27-Oct. 26. Shooting hours are one-half hour before sunrise to one-half hour after official sunset.

■ Normal deer season is Nov. 1-Jan. 18. Shooting hours are one-half hour before sunrise to one-half hour after official sunset.

■ Special antlerless deer season is Jan. 19- Feb. 1. Shooting hours are one-half hour before sunrise to one-half hour after sunset.

The bag limit for all deer seasons is five deer no more than three bucks.

New AFTV edition airs on channel 34

SAN ANTONIO – How the transformation of the Air Force will affect Air Mobility Command is spotlighted in the latest edition of Air Force Television News. In a special Eye on the Air Force, Staff Sgt. Joe Wallace goes to Scott Air Force Base, Ill., to examine what role AMC will play in the transformation blueprint.

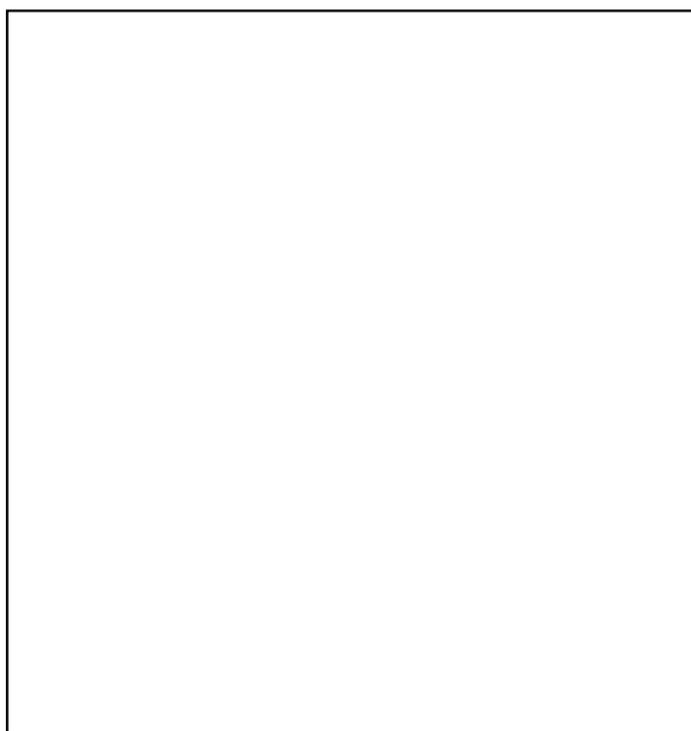

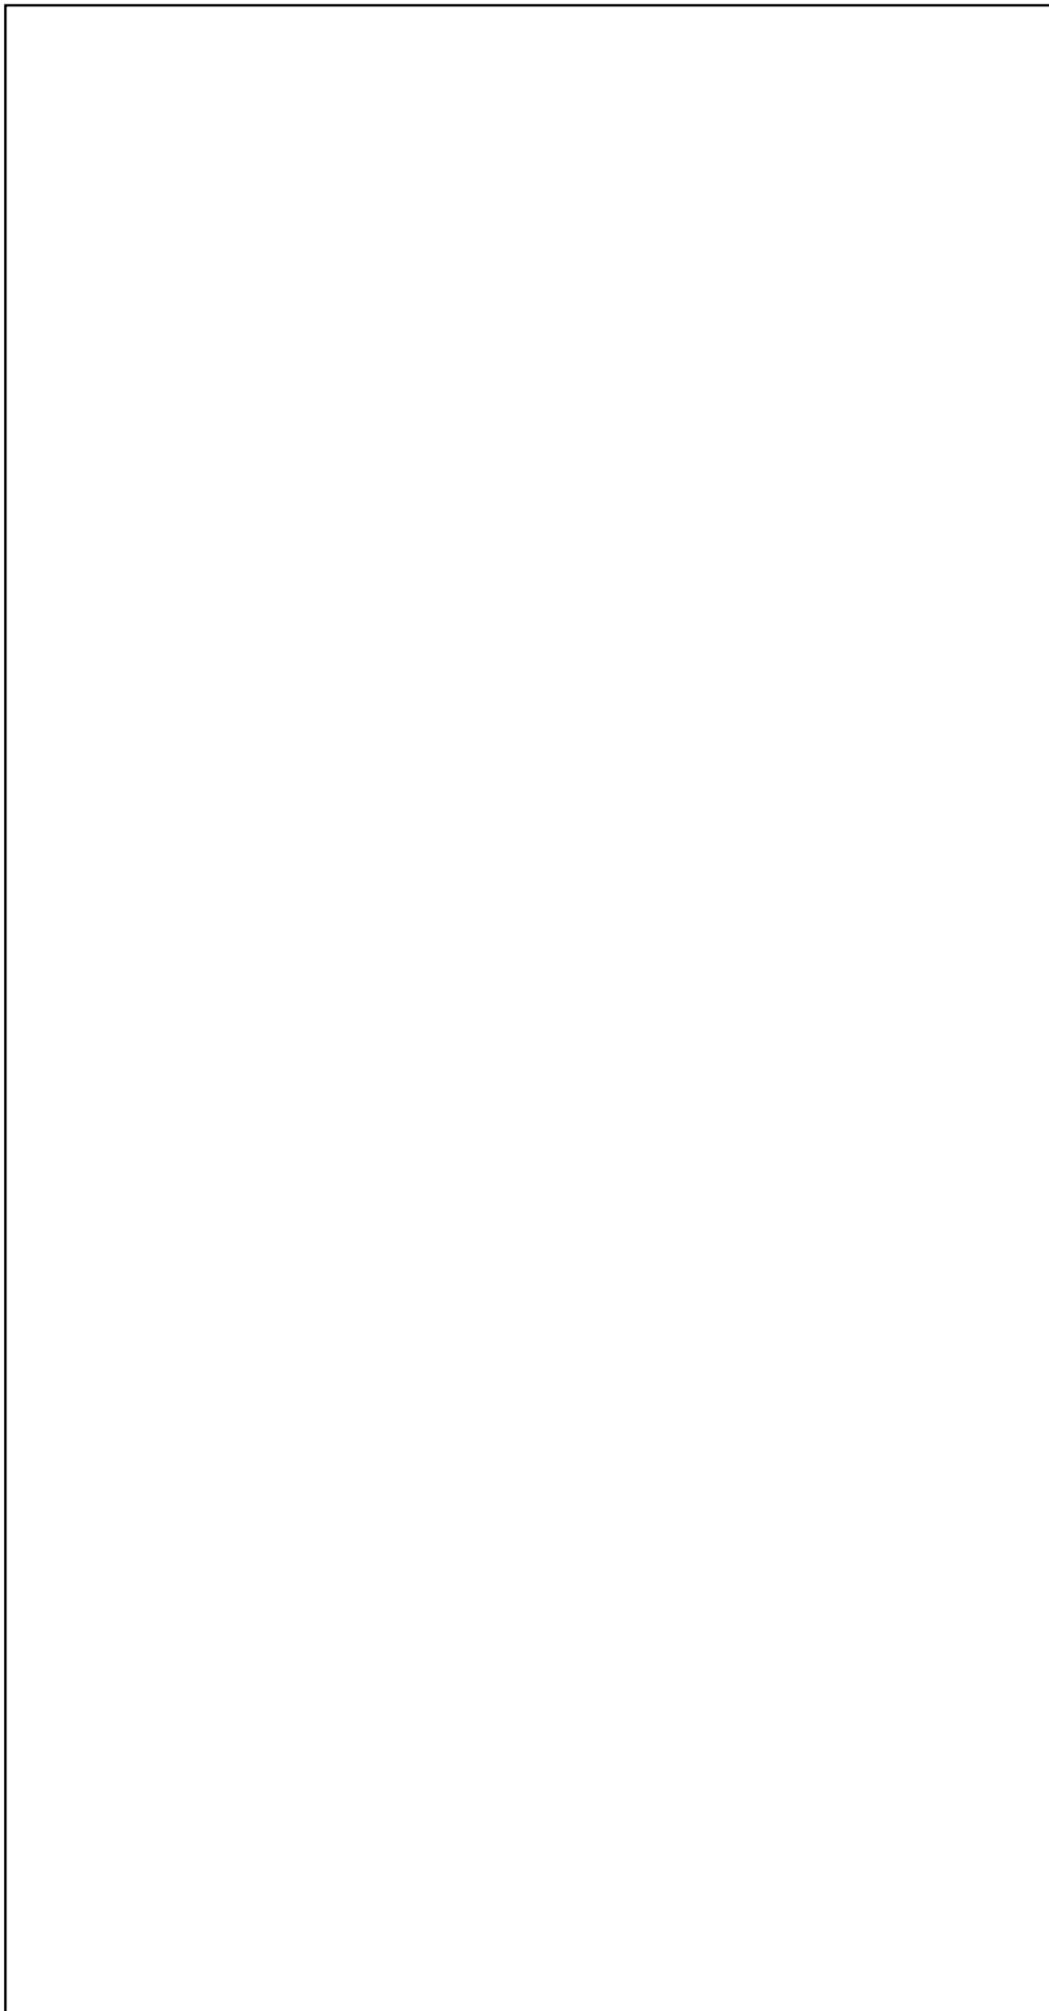

AFTV plays at 10 a.m. and 6 p.m. Monday through Friday on the Laughlin commander's access channel, base cable channel 34.

Staff Sgt. Kevin Dennison visits Offutt AFB, Neb., to profile a maintenance squadron. Squadron airmen maintain a wide range of aircraft providing worldwide reconnaissance, command and control and combat support.

Meanwhile, Staff Sgt. Marty Rush flies over California showing how the Civil Air Patrol contributes to the ongoing battle to keep people or drugs from illegally crossing U.S. borders. Wallace has a story from Chicago on a cooperative effort between U.S. Customs and the Air Force to prevent U.S. mail from being used as a method of smuggling contraband into the country.

Air Force Television News is a biweekly production of Air Force News Service. It is distributed on videotape to more than 3,000 military and civilian outlets worldwide, and is seen on more than 700 cable TV outlets nationwide. It is also available on the Internet at www.af.mil, and can also be seen regularly on The Pentagon Channel. The program is also closed captioned. Viewers can comment on the program by sending an e-mail to: aftvnews@afnews.af.mil.

Moulage 101: learning recipe for wounds

Laughlin members use make up to create realistic-looking wounds

By 1st. Lt. Lindsay Logsdon
Public affairs

Red, brown and black grease liner, modeling clay, glue, Vaseline, a broken tongue blade and "blood" are a few of the necessary ingredients for a great moulage recipe. Although the blood is not real, the goal of moulage is exactly that – realism.

Moulage stems from the French word mouler, which means to cast or mold. In the medical field it is synonymous with injury simulation and is often used to add realism to medical exercises.

Although the best moulage schools are found in Hollywood, Major Nina Watson, 47th Aeromedical Dental Squadron, Health Promotions and Medical Readiness flight commander, taught the first moulage class here Aug. 26-29 on how to create realistic injuries. As a 15-year

veteran of moulage techniques, Major Watson shared many tricks of the trade with the six-person class. "Exercising is such a serious thing and moulage can help to make it fun," she said.

Major Watson started the class by explaining the scenario preparation, victim preparation and injuries. At the end of day one, the first-time moulage students were already creating realistic lacerations, bruises and burns. "It really just takes practice," she explained to the class. "You can look at a picture [of a wound] in a book but it takes mixing colors, molding the clay and placing it on a victim to make it look convincing."

Making a wound look convincing prompted many members of the class to sign up to learn more about moulage. "I was a victim during a readiness training exercise and Maj. Watson made me up," said Airman 1st Class Christine Kline, 47th Medical Support Squadron release of information manager. "I found it very interesting and wanted to learn how to do it."

Even though the Air Force exercises with state of the art equipment, pieces of "junk" from vintage costume shops can do a lot. "The difference between exercising with moulage and exercising without moulage is big," said the moulage teacher. "[With it] you see more of a sense of

Photos by 1st Lt. Lindsay Logsdon

Airman 1st Class Heather Kunsman, 47th Medical Support Squadron, shows off several abrasions, lacerations and a piece of glass protruding from her neck during a moulage class last week.

urgency and it seems more applicable. It's really hard to walk up to a mannequin and visualize a piece of glass sticking out of its neck."

Senior Airman Heather Kunsman, 47th Medical Support Squadron referral manager, volunteered to be the mannequin for the class final project. She was made up with abrasions, lacerations, a cigarette burn, a gaping wound and a head injury. The finishing touch was a jagged piece of glass protruding from her neck. Once the moulage project was finished, Airman Kunsman was delivered on a litter to an unsuspecting family practice staff for an unannounced "exercise".

Initial reactions were priceless as the staff moved full speed into exercise mode. "I realized at once it was an exercise," said Airman 1st Class Juan Gallo, 47th Medical Operations Squadron aeromedical ap-

prentice. "I knew that it wasn't real, but for an exercise you have to act like it's real and the makeup helped to show the signs and symptoms of her injury."

The moulage team adds realism to any exercise. They just need to know the scenario and, as Major Watson put it, how much the squadron wants to play.

Depending on the plan, some research may be required, but the end result of the visual effects will be worth the effort and time.

"I think [moulage] is a very valuable tool," said Major Watson. "People learn best through two or more modes of learning. Moulage enlists seeing, doing and hearing."

Airman 1st Class Christine Kline, 47th Medical Support Squadron, receives a moulage burn to the face.

Staff Sgt. Traci Wilmoth and Dr. (Capt.) Tad Shirley, 47th Medical Operations Squadron, attend to Airman Kunsman during an impromptu exercise.

Contractors construct new

(Top) Francisco Ruiz of Phil Howry Construction saws support beams for the new security forces building. (Right) Pedro Bravo, Eldridge Electric electrician, screws in light fixtures at the new visitors quarters.

(Editors note: This is the fourth in a five-part series about base contractors)

Photos and story by Airman 1st Class Timothy J. Stein
Editor

A walk or drive around Laughlin reveals many different construction projects under way. From the new visitors quarters to the new gym, contractors perform all the construction.

The 47th Contracting Squadron handles contracts for renovation, alteration, repair and minor construction around the base while the Army Corps of Engineers handles major construction projects.

“We currently have 10 construction projects around the base with eight projects under design,” said Juanita Vasquez, 47th CONS engineering support team leader.

Among current projects for the contracting squadron are replacing the roof on the simulator building, an addition to the military family housing office, paving the tarmac where the T-6s sit on the flight line and the replacement of military family housing windows.

Several projects are about to start. The 47th CONS has two separate con-

ew Laughlin features

tracts to place window film on buildings on base. They are also slated to build a new hazardous material pharmacy, improve military family housing lights and installing electronic bollards around base.

The Army Corps of Engineers is similar to the contracting squadron in that it contracts out work to the civilian population, it just handles more expensive projects.

“Our primary function is major military construction,” explained Gary Chaney, Corps of Engineers resident engineer. “We currently have three major products under construction at Laughlin.”

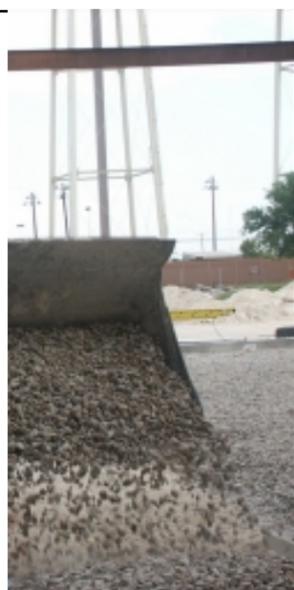

The corps handles all construction projects valued more than \$4 million. Under construction are new visitors quarters, a new gym and security forces building. The visitors quarters is scheduled to be completed in November, the security forces complex in March and the fitness center in June.

The Army Corps of Engineers also have several projects ready to start or in the planning stages. These include the renovation of the clinic in November, repaving the center runway starting in February and breaking ground on a new wing headquarters building in the spring, just to name a few.

“We are always busy,” said Mr. Chaney. “There are always things to build.”

Osbaldo Martinez, T-Luna Construction bricklayer, lays bricks for an outside wall behind the new visitors quarters being built on Fourth Street.

(Left) Jose Ramirez, Reese Albert, Inc. heavy machinery driver, lays down rocks to serve as the foundation for the new gym cement floor. (Right) Worker use a crane to haul materials up to the roof of the new security forces complex under construction.

1st Lt. Darci Hutchins

84th Flying Training Squadron instructor pilot

Hometown: Albuquerque, N.M.

Family: Single

Laughlin: 11 months

Time in service: Three years, three months

Greatest accomplishments: Getting up in the morning, flying daily with student pilots and making it home safely. I also have to throw finishing pilot training myself in there.

Hobbies: Swimming, reading, dancing, movies

Bad habits: Long debriefs, hitting the snooze button and doing yard work (or rather not doing yard work)

Favorite movie: Ocean's 11

Favorite musician/band: Matchbox 20

If you could spend one hour with any person, who would it be and why? The ghost who lives in my computer. He drives me crazy.
